Plastic Free Catering Supplies!

In response to environmental concerns in the media and from the whole OMS community, the children from Olney Middle School Council, the school Catering Department and the Site Manager have developed a 'Plastic Free' initiative for our catering disposables. We have worked with the Waste and Recycling Team at Milton Keynes Council and are pleased to say that we now use Vegware. Our plant-based catering disposables - including our plastic-free clear cups - are made from renewable, lower carbon or recycled materials and can all be commercially composted with food waste (where accepted).

The disposables are all placed in a specially marked green bin and are collected along with the food waste from the kitchen by the MKC contractors.
